

GABRIEL BRANDÃO

SOFTWARE DEVELOPER

I'm a developer with professional experience, having transitioned from web development to software engineering. I started coding at 13, and that passion continues to drive my work today.

EXPERIENCE

- JUNIOR SOFTWARE ENGINEER (PHP)** 11/2023 - 06/2024
Learnship Networks GmbH (Remote)
 - Developed and optimized high-performance services with PHP, Mezzio, TypeScript, and Node.js, improving system scalability and load times.
 - Collaborated with cross-functional teams to define and deliver requirements, achieving on-time project completion and alignment with client objectives.
 - Instituted documentation standards and conducted code reviews, enhancing knowledge transfer and maintaining code quality across projects.
- FOUNDER & DEVELOPER** 06/2023-11/2023
Tap&Go (On-Site)
 - Founded and launched 'Tap&Go,' an NFC-enabled review system for Google Maps and TripAdvisor, boosting customer engagement and feedback collection.
 - Led development of SEO-optimized features and data collection capabilities, enhancing system performance and business insights.
 - Drove audience growth through strategic marketing and visual content, integrating unique features like Instagram discounts and a personalized cocktail recommendation tool.
- LEAD DEVELOPER** 05/2023-11/2023
AlaskaRecover (Remote)
 - Led technical development and strengthened online presence for AlaskaRecover, establishing it as Portugal's top ice bath provider.
 - Built and optimized the WordPress site to enhance user experience and drive customer engagement.
 - Secured partnerships with Decathlon and Amazon and expanded brand reach through strategic collaborations with influencers and athletes.
- FREELANCER** 2020 - 2022
Upwork/Fiverr/Freelancer (Hybrid - While Studying)
 - Websites **Refactorizations & SEO Optimizations**.
 - Complex Website Development (**Full Stack, Shopify, Wordpress**)
 - Software Development (**AI, Facial Recognition, Speech Systems**)
- FOUNDER & DEVELOPER** 2019-2020
Story Stalkers (Social Sivex Apps)
 - Created 'Story Stalkers,' an Instagram viewer app with 200,000+ downloads, adding features like extended viewer tracking.
 - Developed a custom API to expand functionality while upholding privacy standards.
 - Handled API policy challenges through independent design, scaling, and maintenance.
- FULL STACK DEVELOPER INTERNSHIP** 05/2018-08/2018
WebMax - Portimão, Faro, Portugal (On-Site)
 - Developed four websites (two restaurant, two real estate) as a Web Development Intern at WebMax.
 - Built a custom CMS tailored to WebMax's needs, comparable to WordPress/Wix.
 - Received a 19.4/20 performance score for exceptional skill and dedication.
- FULL STACK DEVELOPER INTERNSHIP** 05/2017-08/2017
Publimapa - Ferradugo, Faro, Portugal (On-Site)
 - Developed a corporate website and drop-shipping platform with strong UX and backend efficiency.
 - Achieved a 19.2/20 performance score for quality work.
